Abstract

A resolution of the General Assembly of Virginia directed the State Council of Higher Education to study the volume and characteristics of freshman applicants and enrollees in the state-controlled institutions of higher education for the fall terms of 1966 and 1967. This document, consisting mainly of 203 tables, contains the results of this study, which examined students in the 14 four-year and 14 two-year state-controlled institutions. The study indicates that the freshman year performance of the Fall 1966 enrollees are markedly similar in most respects to the performance of the Fall 1967 enrollees, although the percentage of academic failures was slightly lower in 1967. The percentage of student withdrawals from the 2-year institutions decreased noticeably during the second year, while the percentage of withdrawals from the 4-year institutions remained constant during the sophomore year. A combination of SAT scores and the secondary school record seems to be the best predictor of academic success in most of the institutions, although the secondary school record is the best single predictor. Student-initiated withdrawals, comprising almost 90% of all withdrawals, constitute a major concern, and future Council studies will continue to give special attention to this factor because of its relevance to the planning for higher education in Virginia. I. INTRODUCTION

House Joint Resolution No. 97 of the 1966 General Assembly directed the State Council of Higher Education to study the volume and characteristics of freshman applicants and enrollees in Virginia's state-controlled institutions of higher education for the Fall terms of 1966 and 1967. Reports of these findings were issued by the Council in December, 1966 and December, 1967. An analysis of admissions applications for the Fall term of 1968 has also been recently issued by the Council.

The State Council of Higher Education has long been cognizant of the need and value for state-wide planning purposes of accurate information about students applying for admission to Virginia's state-controlled institutions of higher education, as well as follow-up information about the performance of those students who subsequently enroll in these colleges and universities. Consequently, it has directed its staff to conduct annual follow-up studies of the performance of those students who enrolled as first-time freshmen in the state-controlled institutions for the Fall terms of 1966 and 1967. These studies are to continue as long as these students shall be enrolled in undergraduate programs in the state-controlled institutions of higher education.

Results of the study of the freshman year performance of Fall, 1966 enrollees were issued in December, 1967. The present volume continues this analysis by reporting on the freshman year performance of Fall, 1967 enrollees. It also examines the cumulative performance of Fall, 1966 enrollees through June, 1968 and compares various aspects of the performance of both of these groups of enrollees in Virginia's state-controlled institutions of higher education.

II. FRESHMAN YEAR PERFORMANCE OF FALL, 1967 ENROLLEES

Tables 1 and 2 report distributions of freshman year grade averages by numerical intervals for Fall, 1967 enrolle each of Virginia's four-year and two-year state-controlled institutions of higher education. Corresponding distribu of freshman year grade averages for each of the institutions according to the residence of its enrollees are report Tables 72-75 in the Appendix.

The majority of Virginia's state colleges and universities report grade averages in terms of a high-to-low nume scale of 4 to 0. In relation to the traditional letter grades of A, B, C, D, and F, the numerical grade average inte in Table 1 (and in Tables 72-73) may be interpreted as follows:

4.00- 3.50	Includes those enrollees whose freshman year grades averaged "A" (A, A-).
3.49- 2.50	Includes those enrollees whose freshman year grades averaged "B" (B+, B, B-).
2.49- 1.50	Includes those enrollees whose freshman year grades averaged "C" (C+, C, C-).
1.49- 0.50	Includes those enrollees whose freshman year grades averaged "D" (D+, D, D-).
0.49- 0.00	Includes those enrollees whose freshman year grades averaged "F".

Six institutions (Medical College of Virginia, Radford, Richmond Professional Institute, William and Mary, Christo Newport, and Richard Bland) report grade averages in terms of a high-to-low numerical scale of 3 to 0. In relati the traditional letter grades of A, B, C, D, and F, the numerical grade average intervals in Table 2 (and in Tables 75) may be interpreted as follows:

3.00- 2.50	Includes those enrollees whose freshman year grades averaged "A" (A, A-).

Interpretation of Grade Average Intervals on Numerical Scale of 3 to 0 (Continued)

2.49- 1.50	Includes those enrollees whose freshman year grades averaged "B" (B+, B, B-).
1.49- 0.50	Includes those enrollees whose freshman year grades averaged "C" (C+, C, C-).
0.49- 0.00	Includes those enrollees whose freshman year grades averaged "D" (D+, D, D-).

Enrollees whose grade averages at the end of freshman year were below the minimum required for continued attendance at the particular institution are reported under "Academic Failures." Enrollees who completed the freshman year but whose grade averages were not complete at the time of reporting for this study are listed as "Incomplete." Enrollees who did not complete the freshman year are reported as "Withdrawals."

HIGHLIGHTS OF FRESHMAN YEAR GRADE AVERAGES OF FALL, 1967 ENROLLEES

Four-Year Institutions

- 73.7 per cent had freshman grade averages equivalent to "C-" and above.
- 7.3 per cent had failing freshman grade averages.
- Variation in the per cent of failures in individual institutions ranged from 0.0 to 23.7 per cent.
- 11.9 per cent voluntarily withdrew or were required to withdraw prior to the end of freshman year.
- Variation in the per cent of withdrawals from individual institutions ranged from 2.0 to 27.9 per cent.

Two-Year Institutions

- 52.1 per cent had freshman grade averages equivalent to "C-" and above.
- 5.5 per cent had failing freshman grade averages.
- Variation in the per cent of failures in individual institutions ranged from 0.4 to 15.9 per cent.
- 35.5 per cent voluntarily withdrew or were required to withdraw prior to the end of freshman year.
- Variation in the per cent of withdrawals from individual institutions ranged from 13.4 to 43.5 per cent.

*The figures in this column have already been included under the appropriate numerical grade intervals immediately to the left and therefore are not counted a second time in the institutional total.

Tables 3-14 report distributions of freshman year grade averages of Fall, 1967 enrollees according to secondary school class rank deciles and College Board Scholastic Aptitude Test (SAT) scores. Corresponding distributions for Fall, 1967 enrollees according to residence are reported in Tables 76-99 in the Appendix.

Coefficients of correlation indicating the degree to which freshman year grade averages of Fall, 1967 enrollees are associated with secondary school class ranks and College Board Scholastic Aptitude Test scores are reported in Table 15.

HIGHLIGHTS OF FRESHMAN YEAR GRADE AVERAGES AND PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1967 ENROLLEES

Four-Year Institutions

- 80.4 per cent of those who ranked in the upper half of their secondary school class had freshman grade averages equivalent to "C-" and above.
- 84.7 per cent of those who had SAT-Verbal scores 500 and above had freshman grade averages equivalent to "C-" and above.
- 76.8 per cent of those who had SAT-Mathematical scores 500 and above had freshman grade averages equivalent to "C-" and above.

Two-Year Institutions

- 66.8 per cent of those who ranked in the upper half of their secondary school class had freshman grade averages equivalent to "C-" and above.
- 62.6 per cent of those who had SAT-Verbal scores 500 and above had freshman grade averages equivalent to "C-" and above.
- 66.2 per cent of those who had SAT-Mathematical scores 500 and above had freshman grade averages equivalent to "C-" and above.

*This analysis includes only those enrollees for whom complete information on all three previous academic characteristics (Secondary school class rank, SAT-Verbal score, and SAT-Mathematical score) was reported by their institution.

**Nursing and Radiologic Technology Only.

Tables 16-21 report distributions of secondary school class rank deciles and College Board Scholastic Aptitude Test scores for Fall, 1967 enrollees who completed the work of freshman year with grade averages below the minimum required for continued attendance at the state-controlled institutions of higher education. Corresponding distributions for these "Academic Failures" according to residence are reported in Tables 100-111 in the Appendix.

HIGHLIGHTS OF PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1967 ENROLLEES WHO WERE ACADEMIC FAILURES AT THE END OF FRESHMAN YEAR

Four-Year Institutions

Of the 12,683 Fall, 1968 enrollees, 971 (7.7 per cent) were Academic Failures at the end of freshman year.

- 57.9 per cent of the Academic Failures ranked in the upper half of their secondary school class.
- 29.1 per cent had SAT-Verbal scores 500 and above.
- 41.7 per cent had SAT-Mathematical scores 500 and above.
- 21.0 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 27.7 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 20.8 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Two-Year Institutions

Of the 6,208 Fall, 1967 enrollees 341 (5.5 per cent) were Academic Failures at the end of freshman year.

- 20.8 per cent of the Academic Failures ranked in the upper half of their secondary school class.
- 5.6 per cent had SAT-Verbal scores 500 and above.
- 12.0 per cent had SAT-Mathematical scores 500 and above.
- 1.5 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 5.0 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 2.1 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Table 22 summarizes the reasons why certain Fall, 1967 enrollees did not complete freshman year, as reported to the Council by the state-controlled instituitons of higher education. Withdrawals classified as "Academic" and "Non-Academic" were initiated by the institution. Withdrawals classified as "Personal" were initiated by the student. Corresponding summaries of reasons for withdrawal according to residence are reported in Tables 112-113 in the Appendix.

HIGHLIGHTS OF REASONS WHY CERTAIN FALL, 1967 ENROLLEES DID NOT COMPLETE FRESHMAN YEAR

Four-Year Institutions

Of the 12,683 Fall, 1967 enrollees, 1,503 (11.9 per cent) voluntarily withdrew or were required to withdraw prior to the end of freshman year.

- 9.0 per cent of those who did not complete freshman year were required to withdraw for academic reasons.
- Variation in the per cent of those required to withdraw for academic reasons from individual institutions ranged from 0.0 to 50.0 per cent.
- 1.7 per cent were required to withdraw for non-academic reasons.
- Variation in the per cent of those required to withdraw for non-academic reasons from individual institutions ranged from 0.0 to 12.9 per cent.
- 89.3 per cent voluntarily withdrew for personal reasons.
- Variation in the per cent of those withdrawing for personal reasons from individual institutions ranged from 50.0 to 100.0 per cent.

Two-Year Institutions

Of the 6,208 Fall, 1967 enrollees, 2,204 (35.5 per cent) voluntarily withdrew or were required to withdraw prior to the end of freshman year.

- 9.0 per cent of those who did not complete freshman year were required to withdraw for academic reasons.
- Variation in the per cent of those required to withdraw for academic reasons from individual institutions ranged from 0.0 to 40.8 per cent.
- 0.1 per cent were required to withdraw for non-academic reasons.
- Variation in the per cent of those required to withdraw for non-academic reasons from individual institutions ranged from 0.0 to 5.9 per cent.
- 90.9 per cent voluntarily withdrew for personal reasons.
- Variation in the per cent of those withdrawing for personal reasons from individual institutions ranged from 60.0 to 100.0 per cent.

Tables 23-34 report distributions of secondary school class rank deciles and College Board Scholastic Aptitude Test scores for Fall, 1967 enrollees who withdrew for "Academic" and "Personal" reasons during their freshman year. Corresponding distributions for these withdrawals according to residence are reported in Tables 114-137 in the Appendix.

HIGHLIGHTS OF PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1967 ENROLLEES WHO WERE REQUIRED TO WITHDRAW FOR ACADEMIC REASONS PRIOR TO THE END OF FRESHMAN YEAR

Four-Year Institutions

Of the 12,683 Fall, 1967 enrollees, 135 (1.1 per cent) were required to withdraw for academic reasons prior to the end of freshman year.

- 72.6 per cent of those required to withdraw for academic reasons ranked in the upper half of their secondary school class.
- 38.5 per cent had SAT-Verbal scores 500 and above.
- 49.6 per cent had SAT-Mathematical scores 500 and above.
- 31.1 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 40.0 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 28.1 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Two-Year Institutions

Of the 6,208 Fall, 1967 enrollees, 197 (3.2 per cent) were required to withdraw for academic reasons prior to the end of freshman year.

- 17.3 per cent of those required to withdraw for academic reasons ranked in the upper half of their secondary school class.
- 7.1 per cent had SAT-Verbal scores 500 and above.
- 11.7 per cent had SAT-Mathematical scores 500 and above.
- 4.1 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 5.1 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 4.6 per cent had both SAT-Verbal and Mathematical scores 500 and above.

HIGHLIGHTS OF PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1967 ENROLLEES WHO VOLUNTARILY WITHDREW FOR PERSONAL REASONS PRIOR TO THE END OF FRESHMAN YEAR

Four-Year Institutions

Of the 12,683 Fall, 1967 enrollees, 1,342 (10.6 per cent) voluntarily withdrew for Personal reasons prior to the end of freshman year.

- 58.9 per cent of those who voluntarily withdrew for Personal reasons ranked in the upper half of their secondary school class.
- 26.9 per cent had SAT-Verbal scores 500 and above.
- 36.4 per cent had SAT-Mathematical scores 500 and above.
- 20.6 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 29.1 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 20.3 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Two-Year Institutions

Of the 6,208 Fall, 1967 enrollees, 2,004 (32.3 per cent) voluntarily withdrew for Personal reasons prior to to end of freshman year.

- 21.0 per cent of those who voluntarily withdrew for Personal reasons ranked in the upper half of their secondary school class.
- 5.6 per cent had SAT-Verbal scores 500 and above.
- 8.6 per cent had SAT-Mathematical scores 500 and above.
- 2.6 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 4.3 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 3.4 per cent had both SAT-Verbal and Mathematical scores 500 and above.

CUMULATIVE PERFORMANCE OF FALL, 1966 ENROLLEES THROUGH JUNE, 1968

ables 35 and 36 report distributions of June, 1968 cumulative grade averages by numerical intervals for Fall, 1966 nrollees in each of Virginia's four-year and two-year state-controlled institutions of higher education. Corresponding istributions of cumulative grade averages for each of the institutions according to the residence of its enrollees are eported in Tables 138-141 in the Appendix.

he majority of Virginia's state colleges and universities report grade averages in terms of a high-to-low numerical cale of 4 to 0. In relation to the traditional letter grades of A, B, C, D, and F, the numerical grade average intervals n Table 35 (and in Tables 138-139) may be interpreted as follows:

4.00- 3.50	Includes those enrollees whose cumulative grades averaged "A" (A, A-).
3.49- 2.50	Includes those enrollees whose cumulative grades averaged "B" (B+, B, B-).
2.49- 1.50	Includes those enrollees whose cumulative grades averaged "C" (C+, C, C-).
1.49- 0.50	Includes those enrollees whose cumulative grades averaged "D" (D+, D, D-).
0.49- 0.00	Includes those enrollees whose cumulative grades averaged "F".

ix institutions (Medical College of Virginia, Radford, Richmond Professional Institute, William and Mary, Christopher lewport, and Richard Bland) report grade averages in terms of a high-to-low numerical scale of 3 to 0. In relation to ne traditional letter grades of A, B, C, D, and F, the numerical grade average intervals in Table 36 (and in ables 140-141) may be interpreted as follows:

3.00- 2.50	Includes those enrollees whose cumulative grades averaged "A" (A, A-).

(Continued on next page)

nterpretation of Grade Average Intervals on Numerical Scale of 3 to 0 (Continued)

2.49– 1.50	Includes those enrollees whose cumulative grades averaged "B" (B+, B, B–).
1.49– 0.50	Includes those enrollees whose cumulative grades averaged "C" (C+. C. C–).
0.49– 0.00	Includes those enrollees whose cumulative grades averaged "D" (D+, D, D–) or "F".

nrollees whose grade averages in June, 1968 were below the minimum required for continued attendance at the articular institution are reported under "Academic Failures." Enrollees whose grade averages were not complete at he time of reporting for this study are listed as "Incomplete." Enrollees who began but did not complete the 1967-68 cademic year are reported as "Withdrawals."

HIGHLIGHTS OF JUNE, 1968 CUMULATIVE GRADE AVERAGES OF FALL, 1966 ENROLLEES

Four-Year Institutions

- 86.6 per cent had cumulative grade averages equivalent to "C–" and above.
- 5.5 per cent had failing cumulative grade averages.
- Variation in the per cent of failures in individual institutions ranged from 0.2 to 13.6 per cent.
- 9.6 per cent voluntarily withdrew or were required to withdraw during the 1967-68 academic year.
- Variation in the per cent of withdrawals from individual institutions ranged from 0.0 to 23.0 per cent.

Two-Year Institutions

- 72.2 per cent had cumulative grade averages equivalent to "C–" and above.
- 6.0 per cent had failing cumulative grade averages.
- Variation in the per cent of failures in individual institutions ranged from 0.0 to 9.8 per cent.
- 17.5 per cent voluntarily withdrew or were required to withdraw during the 1967-68 academic year.
- Variation in the per cent of withdrawals from individual institutions ranged from 5.0 to 28.1 per cent.

Tables 37-48 report distributions of June, 1968 cumulative grade averages of Fall, 1966 enrollees according to secondary school class rank deciles and College Board Scholastic Aptitude Test (SAT) scores. Corresponding distributions for Fall, 1966 enrollees according to residence are reported in Tables 142-165 in the Appendix.

Coefficients of correlation indicating the degree to which June, 1968 cumulative grade averages of Fall, 1966 enrollees are associated with secondary school class ranks and College Board Scholastic Aptitude Test scores are reported in Table 49.

HIGHLIGHTS OF JUNE, 1968 CUMULATIVE GRADE AVERAGES AND PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1966 ENROLLEES

Four-Year Institutions

- 88.6 per cent of those who ranked in the upper half of their secondary school class and continued in the second year of college had cumulative grade averages equivalent to "C-" and above.
- 90.7 per cent of those who had SAT-Verbal scores 500 and above and continued in the second year of college had cumulative grade averages equivalent to "C-" and above.
- 89.3 per cent of those who had SAT-Mathematical scores 500 and above and continued in the second year of college had cumulative grade averages equivalent to "C-" and above.

Two-Year Institutions

- 81.2 per cent of those who ranked in the upper half of their secondary school class and continued in the second year of college had cumulative grade averages equivalent to "C-" and above.
- 81.3 per cent of those who had SAT-Verbal scores 500 and above and continued in the second year of college had cumulative grade averages equivalent to "C-" and above.
- 77.7 per cent of those who had SAT-Mathematical scores 500 and above and continued in the second year of college had cumulative grade averages equivalent to "C-" and above.

Table 37--DISTRIBUTION OF JUNE, 1968 CUMULATIVE GRADE AVERAGES AND SECONDARY SCHOOL CLASS RANK DECILES OF FALL, 1966 ENROLLEES IN VIRGINIA FOUR-YEAR STATE-CONTROLLED INSTITUTIONS OF HIGHER EDUCATION USING A NUMERICAL GRADING SCALE OF 4 TO 0

*This analysis includes only those enrollees for whom complete information on all three previous academic characteristics (Secondary school class rank, SAT-Verbal score, and SAT-Mathematical score) was reported by their institution.

**Nursing and Radiologic Technology Only.

Tables 50-55 report distributions of secondary school class rank deciles and College Board Scholastic Aptitude Test scores for Fall, 1966 enrollees who had cumulative grade averages in June, 1968 below the minimum required for continued attendance at the state-controlled institutions of higher education. Corresponding distributions for these "Academic Failures" according to residence are reported in Tables 166-177 in the Appendix.

HIGHLIGHTS OF PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1966 ENROLLEES WHO WERE ACADEMIC FAILURES IN JUNE, 1968

Four-Year Institutions

Of the 8,942 Fall, 1966 enrollees who continued in the second year of college, 496 (5.5 per cent) were Academic Failures in June, 1968.

- 72.4 per cent of the Academic Failures ranked in the upper half of their secondary school class.
- 30.0 per cent had SAT-Verbal scores 500 and above.
- 42.5 per cent had SAT-Mathematical scores 500 and above.
- 25.2 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 33.9 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 22.8 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Two-Year Institutions

Of the 1,578 Fall, 1966 enrollees who continued in the second year of college, 94 (6.0 per cent) were Academic Failures in June, 1968.

- 26.6 per cent of the Academic Failures ranked in the upper half of their secondary school class.
- 6.4 per cent had SAT-Verbal scores 500 and above.
- 11.7 per cent had SAT-Mathematical scores 500 and above.
- 1.1 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 5.3 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 2.1 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Table 56 summarizes the reasons why certain Fall, 1966 enrollees began but did not complete the 1967-68 academic year, as reported to the Council by the state-controlled institutions of higher education. Withdrawals classified as "Academic" and "Non-Academic" were initiated by the institution. Withdrawals classified as "Personal" were initiated by the student. Corresponding summaries of reasons for withdrawal according to residence are reported in Tables 178-179 in the Appendix.

HIGHLIGHTS OF REASONS WHY CERTAIN FALL, 1966 ENROLLEES DID NOT COMPLETE THE 1967-68 ACADEMIC YEAR

Four-Year Institutions

Of the 8,942 Fall, 1966 enrollees who continued in the second year of college, 855 (9.6 per cent) voluntarily withdrew or were required to withdraw during the 1967-68 academic year.

- 23.1 per cent of those who did not complete the year were required to withdraw for academic reasons.
- Variation in the per cent of those required to withdraw for academic reasons from individual institutions ranged from 0.0 to 72.1 per cent.
- 0.9 per cent were required to withdraw for non-academic reasons.
- Variation in the per cent of those required to withdraw for non-academic reasons from individual institutions ranged from 0.0 to 6.5 per cent.
- 76.0 per cent voluntarily withdrew for personal reasons.
- Variation in the per cent of those withdrawing for personal reasons from individual institutions ranged from 0.0 to 100.0 per cent.

Two-Year Institutions

Of the 1,578 Fall, 1966 enrollees who continued in the second year of college, 277 (17.5 per cent) voluntarily withdrew or were required to withdraw during the 1967-68 academic year.

- 30.0 per cent of those who did not complete the year were required to withdraw for academic reasons.
- Variation in the per cent of those required to withdraw for academic reasons from individual institutions ranged from 0.0 to 57.1 per cent.
- 0.7 per cent were required to withdraw for non-academic reasons.
- Variation in the per cent of those required to withdraw for non-academic reasons from individual institutions ranged from 0.0 to 22.2 per cent.
- 69.3 per cent voluntarily withdrew for personal reasons.
- Variation in the per cent of those withdrawing for personal reasons from individual institutions ranged from 0.0 to 100.0 per cent.

Tables 57-68 report distributions of secondary school class rank deciles and College Board Scholastic Aptitude Test scores for Fall, 1966 enrollees who withdrew for "Academic" and "Personal" reasons during the 1967-68 academic year. Corresponding distributions for these withdrawals according to residence are reported in Tables 180-203 in the Appendix.

HIGHLIGHTS OF PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1966 ENROLLEES WHO WERE REQUIRED TO WITHDRAW FOR ACADEMIC REASONS DURING THE 1967-68 ACADEMIC YEAR

Four-Year Institutions

Of the 8,942 Fall, 1966 enrollees who continued in the second year of college, 197 (2.2 per cent) were required to withdraw for academic reasons during the 1967-68 academic year.

- 81.2 per cent of those required to withdraw for academic reasons ranked in the upper half of their secondary school class.
- 54.8 per cent had SAT-Verbal scores 500 and above.
- 66.5 per cent had SAT-Mathematical scores 500 and above.
- 46.2 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 56.3 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 44.7 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Two-Year Institutions

Of the 1,578 Fall, 1966 enrollees who continued in the second year of college, 83 (5.3 per cent) were required to withdraw for academic reasons during the 1967-68 academic year.

- 32.5 per cent of those required to withdraw for academic reasons ranked in the upper half of their secondary school class.
- 6.0 per cent had SAT-Verbal scores 500 and above.
- 24.1 per cent had SAT-Mathematical scores 500 and above.
- 2.4 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 10.8 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 2.4 per cent had both SAT-Verbal and Mathematical scores 500 and above.

HIGHLIGHTS OF PREVIOUS ACADEMIC CHARACTERISTICS OF FALL, 1966 ENROLLEES WHO VOLUNTARILY WITHDREW FOR PERSONAL REASONS DURING THE 1967-68 ACADEMIC YEAR

Four-Year Institutions

Of the 8,942 Fall, 1966 enrollees who continued in the second year of college, 650 (7.3 per cent) voluntarily withdrew for Personal reasons during the 1967-68 academic year.

- 75.5 per cent of those who voluntarily withdrew for Personal reasons ranked in the upper half of their secondary school class.
- 35.2 per cent had SAT-Verbal scores 500 and above.
- 52.5 per cent had SAT-Mathematical scores 500 and above.
- 29.1 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 44.8 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 29.9 per cent had both SAT-Verbal and Mathematical scores 500 and above.

Two-Year Institutions

Of the 1,578 Fall, 1966 enrollees who continued in the second year of college, 192 (12.2 per cent) voluntarily withdrew for Personal reasons during the 1967-68 academic year.

- 30.2 per cent of those who voluntarily withdrew for Personal reasons ranked in the upper half of their secondary school class.
- 10.9 per cent had SAT-Verbal scores 500 and above.
- 16.7 per cent had SAT-Mathematical scores 500 and above.
- 4.7 per cent ranked in the upper half of their secondary school class and had SAT-Verbal scores 500 and above.
- 6.3 per cent ranked in the upper half of their secondary school class and had SAT-Mathematical scores 500 and above.
- 4.2 per cent had both SAT-Verbal and Mathematical scores 500 and above.

IV. DISCUSSION

The results of the study of the freshman year performance of Fall, 1967 enrollees in Virginia's state-controlled colleges and universities are markedly similar in most respects to the freshman performance of Fall, 1966 enrollees. The comparative figures in Tables 69 and 70 reveal only slight differences in the percentages of freshman grade averages in the respective categories for the two classes.

The earlier evaluation of the freshmen performance of Fall, 1966 enrollees[1] is almost totally appropriate to the performance of Fall, 1967 enrollees. The latter group again includes students from a broad academic spectrum, and again the record of achievement in secondary school seems to be the best single predictor of probable academic success in nearly all of the state-controlled institutions of higher education. Table 15 reveals the variation in the predictive usefulness of secondary school record and College Board test scores among the individual institutions, with an appropriate combination of all three of these factors yielding the best statistical index of future achievement.

The overall percentage of Academic Failures among Fall, 1967 enrollees in Virginia's state-controlled colleges and universities was slightly lower than the same figure for the 1966 group. With a few exceptions, these freshmen failure rates suggest that the state-controlled institutions are enjoying quite respectable success in one of man's most difficult ventures, predicting human behavior.

The freshman year withdrawal figures summarized in Tables 69-71 for the 1966 and 1967 enrollee groups could encourage speculation about the retention of students, particularly in the two-year colleges. In Virginia, many of the two-year institutions, especially the relatively new comprehensive community colleges, subscribe to some form of an "open-door" admissions policy whereby persons who are high school graduates or who are at least 18 years of age and are in any case able to benefit from a program at the institution are eligible for general admission to the college. As long as these colleges fulfill their responsibilities as multi-purpose institutions offering a variety of transfer and terminal programs to a broad spectrum of the student population, they can be expected to experience a higher withdrawal rate than the more selective institutions. Moreover, the current national experience among public two-year colleges suggests that the withdrawal rates for 1966 and 1967 enrollees in Virginia's two-year institutions are not atypical for this type of institution.[2]

Continuing review and analysis of student performance in these situations, whether they occur in two-year or four-year institutions, is particularly critical, lest they become "revolving doors" that discharge students back into the outside world ill-prepared and demoralized by a further lack of accomplishment. At the present time three state-controlled and two private two-year colleges in Virginia are participating in a consortium under the sponsorship of the Regional Education Laboratory for the Carolinas and Virginia, to investigate and develop solutions to these and other problems that confront the potential failure or drop-out.[3] As Virginia broadens its higher educational opportunities through the development of more comprehensive, two-year open-door type institutions in the years immediately ahead, it must not overlook the special obligation "to place students in programs in which the student has a good chance of succeeding and, conversely, to keep students out of programs in which they will probably fail."[4]

The figures of Table 71 indicate that "Personal" reasons continue to be cited as responsible for the great majority of student withdrawals, though information leading to a more precise analysis of this broad category is rarely available. As Cope has recently reminded us, the reasons for student withdrawal are often "complex and overlapping."[5] Moreover, evidence suggests that the reasons given by withdrawing students are not always the "real" reasons for their leaving the institution.[6] Summerskill's words of 1962 appear to be as relevant as ever: "In view of this long-standing concern, our knowledge of the attrition process is surprisingly meager."[7] Constant review and study of this aspect of the higher educational program will continue to be essential if maximum yield is to be realized from individual, institutional, and state resources.

The findings in the follow-up study of the June, 1968 cumulative performance of Fall, 1966 enrollees reveal an expected improvement in the over-all academic record of those who continued their studies during the second year. In both the two and four-year institutions a larger percentage of students had cumulative grade averages of "C-" or higher; and the percentage of students who were academic failures was lower, particularly in the four-year institutions.

[7] John Summerskill, "Dropouts From College," in Nevitt Sanford (Ed.), The American College (New York: John Wiley, 1962), pp. 627-657.

The percentage of student withdrawals from the two-year institutions decreased noticeably during the second year, while the percentage of withdrawals from the four-year institutions remained constant. The most apparent change among the withdrawals in both types of institutions was an increase in the percentage of students who were required to withdraw for academic reasons during the second year. Student withdrawals for personal reasons showed a corresponding decline. Even in the second year, however, personal factors still accounted for nearly three-fourths of the withdrawals among Fall, 1966 enrollees, further evidence of the need for continuing review and analysis of this particular aspect of student performance.

Legitimate concern with the withdrawal rates among enrollees at the state-controlled institutions of higher education must not, however, mislead one to the conclusion that all student withdrawals from a particular college or university are inappropriate or unjustified. Wharton notes that two basic theories about college attrition have traditionally been widely held:

> "The first theory is that college attrition of any kind is a deplorable waste of talent and opportunity.
>
> The second theory is that whenever a student withdraws or is dropped, the college itself has failed somehow in its responsibility to him."[8]

The experience in Virginia and elsewhere, however, indicates that in many cases withdrawal "even at worst, is not necessarily failure -- either on the part of the student or of the college."[9] Even though the greatest proportion of student withdrawals typically occurs during the first two years of college, future Council studies of performance of Fall, 1966 and Fall, 1967 enrollees will continue to give special attention to this factor because of its relevance to the planning for higher education in the Commonwealth.
